Information about and criteria for applications by youth organisations for activities to be held in co-operation with the European Youth Centres

As adopted by the Programming Committee on Youth
at its 43rd meeting (23-24 June 2020)

The European Youth Centres of the Council of Europe, in Strasbourg and Budapest, were set up to support youth participation in Europe and to provide support - through education and training – to associative networks and projects interested in sharing the Council of Europe's principles and priorities in the youth field.

In addition to their own programme of education and training activities, the European Youth Centres carry out a yearly programme of study sessions and other activities held in co-operation with non-governmental and governmental youth partners. These activities reflect the principles of co-management and partnership with young people and their organisations that are at the heart of the youth policy of the Council of Europe and contribute to the implementation of the Youth for Democracy programme.

These activities - of which the most visible are the study sessions – are based on co-operation between the partner organisations and the Council of Europe's Youth Department. The programme is based on applications submitted twice a year and decided upon by the Programming Committee on Youth. The activities are globally financed by the budget of the youth sector of the Council of Europe (specific modalities are available at the Secretariat).

1. ELIGIBLE APPLICANTS

- a. European/International non-governmental youth organisations with partners or branches in at least 8 European countries;
- b. European formal or informal networks of youth organisations and other non- governmental youth structures bringing together partners from at least 8 European countries; networks are considered eligible if their members or affiliates share a common purpose and long-term aims and their commitment for cooperation clearly goes beyond a specific time, project or activity;
- c. Sub-regional networks of youth organisations and/or national youth councils and structures involved in youth work, from at least 5 neighbouring countries

Applicants should be involved in areas of youth work relevant to the Council of Europe's youth policy and interested in contributing to the work priorities and principles of the Council of Europe's youth field.

2. ELIGIBLE ACTIVITIES

a. *Study Sessions*

Study sessions are international educational youth seminars (meetings), lasting between four and eight days, which bring together multipliers active in youth organisations or networks to deepen the understanding, and prepare future action, about a specific subject of common interest and relevance to the priorities of the youth organisation(s) and of the Council of Europe Youth sector. They are organised in co-operation with youth organisations and networks, and are held at one of the European Youth Centres, in Strasbourg or Budapest.

A study session should combine pan-European approaches and perspectives with local/grassroots youth work experiences. The contents of study sessions filter down to the grassroots, as participants in a study session, mostly local leaders, act as multipliers towards their peers. The results of study sessions can be implemented and used by participants in their local realities, in addition to their contribution to the policies of the youth organisations and of the Council of Europe.

A typical study session brings together between 20 and 40 participants from 4 to 8 working days and is held in 2 languages with simultaneous interpretation (if required). The participants are recruited through the channels of the partner organisation(s) and the programme is prepared by an educational team composed by the partner organisation(s) with the participation of an educational advisor of the Council of Europe.

b. *Double Study Sessions*

Double study sessions have the same function as study sessions, with the following specifications:

- They are proposed and implemented by at least two applicant organisations;
- They bring together a minimum of 40 and a maximum of 70 participants, including the preparatory team;
- have a maximum duration of 5 working days (exceptions are possible, if justified);
- may benefit – when justified – from interpretation into three working languages.

c. *Symposia*

Symposia are activities addressing themes and matters of common concern and interest for both the governmental and non-governmental partners of the Youth Department. Symposia are aimed at knowledge production and contributing to the youth policy development of the Council of Europe and its governmental and non-governmental partners. Symposia are decided upon by and run under the supervision of the Programming Committee on Youth on the basis of the following guidelines:

- Applications may be submitted by 4 co-operating partners (unless directly decided by the Joint Council on Youth);
- The participants are recruited from the wide circle of governmental and non- governmental partners of the Youth Department of the Council of Europe;

- The secretariat and administration of symposia is secured by the Secretariat of the European Youth Centre. The recruitment of participants is made by the Secretariat; the selection of participants should be done together with the preparatory team;
- Symposia are prepared by a preparatory team comprising representatives of the applicants, the Secretariat and, where appropriate, representatives of the statutory bodies.

d. Special projects

Special projects are activities of an innovative character that fall outside the specific conditions of study sessions and symposia. Such projects should provide benefits for the organisation, network or youth structure concerned and have a wider application in the programme of the Youth Department. Consultation with the Secretariat of the Youth Department is recommended before applications are submitted.

The following activities are not eligible for support in co-operation with the European Youth Centre:

ASSESSMENT AND DECISIONS ON THE APPLICATIONS

All applications received are first assessed by the secretariat of the Youth Department on the grounds of:

- a) Eligibility of the applying organisation(s)
- b) Conformity with the formal criteria for the activities (e.g. duration, number of participants, countries of origin...)
- c) The educational/quality criteria related to the purpose, programme and process implementation of the activity
- d) The criteria for prioritisation.

NB: The non-conformity of an application with any of the criteria in a) and b) automatically disqualifies it.

The assessments of the secretariat are communicated to, and discussed by the Programming Committee on Youth, a co-managed body composed of 8 governmental and 8 non-governmental members of the Joint Council on Youth.

The Programming Committee on Youth takes the final decisions on eligible applications, prioritises the ones to be accepted in the programme and issues specific recommendations to the applicants. The Programming Committee on Youth may also place some applications on reserve list or invite applicants to re-submit their application.
